

Orienteering in Kerry

Kerry Orienteers the local orienteering club in Kerry organises a series of public events. At each event (Monday event "Green" Course only), there are six colour coded courses suitable for people of all levels of ability. The courses range from the long difficult (Brown) course to the short easy (Light Green) course.

At each of the events listed for the Kerry League these courses are available.

**BROWN; BLUE; GREEN; LIGHT GREEN; RED;
ORANGE**

The Kerry League

Orienteers will compete against others on the same colour course over the Kerry League series of events. By being consistent, by competing regularly and by remaining on the same colour course throughout the series, competitors will have a greater chance of winning the **Kingdom League**. Participants should stick to running the same colour course for every event they attend during the **Kingdom League** series.

Scoring

Points are awarded to each event participant, based upon their results and finishing order. First place will be awarded 20pt. Second will be awarded 19pt. Third will be awarded 18pts and so on. Any participants finishing in twentieth position or above will be awarded 1 pt.

Out of the six possible events over the two series, a participant's best three results will be accumulated to give an overall qualifying score for the Kerry League. If any course leaders have equal points, the winner will be the competitor with the most event wins.

Event organisers will be awarded 20 points for the event they organised. Only one event as organiser will qualify.

The participants with the highest accumulated points for each of the courses after the last event of the series has taken place will be deemed the winners.

All events are open to the public

Kerry Orienteers
